

BREAKING NEWS!

Pinnacle Computer Services is now a Prometric Testing Center

Job seekers have reason to rejoice

By Christine Jackson
Training Coordinator

Don't travel long distances for your training and testing. Now you can get both here at Pinnacle Computer Services. We will prep you with the skills you need through our hands-on instructor-led classroom training. When you're ready to prove you have the knowledge, we can administer the tests that lead to various industry IT certifications. There's no better way to prove to a potential employer that you have the skills it takes to do the job than a certification. Prometric is partnered with nearly 100 different IT vendors, so whether it's Microsoft, Juniper, Comp TIA, or even Google, you can get the testing you need at Pinnacle. Give them a call at (812) 476-6662 x224, or register online to schedule your certification test or training.

"I'm sure my certification will help me get the job I want."
